

555 SOFTLIGHT PUTTY

INNOVATIVE
FORMULATION

- Very smooth finish due to micro filling particles
- Excellent adhesive properties
- Can be sanded after only 20 min
- Time efficient: fast to apply, short drying time
- High elasticity
- Doesn't clog up sanding paper

- Lightweight putty for smaller dents and scratches
- Thanks to micro-fine fillers it is possible to achieve a very smooth, even surface
- The putty is easy to sand because of its flexible and constant texture
- Good stability on vertical surfaces
